

Smarter and faster fiber testing with simple set-up and instantaneous pass/fail results

Turn every technician into a fiber expert

JDSU T-BERD 2000 Handheld Modular Test Set solution addresses the complexity of fiber testing and drives maximum efficiency for technicians to perform all the tests required to ensure optimized performance and high-quality fiber networks. The T-BERD 2000 handles the widest range of test applications including LAN/WAN/Metro/Access/PON OTDR, FiberComplete™ automatic IL/ORL, CWDM analyzer, selective PON power meter and connector inspection with IEC pass/fail analysis.

JDSU P5000i Digital Analysis Microscope with FiberChekPRO™ makes it fast and easy to certify that every connection in your network is optimized and future-proof. This intelligent microscope removes the guesswork from fiber inspection with automated, certified to IEC standards Pass/Fail analysis of the fibers that are the service lifelines to your customers.
